

DROP

Ozone Complete

Improved Oxidation with NO Chemicals

The DROP Ozone Complete with a design that includes all control connections. Plug the unit into A/C power and the valve and the rest is automatic.

Features

- First in the industry to include an air dryer for excellent ozone production
- Controlled directly from the valve head, no external relay required
- Eliminates the need for chemical feed
- Dissipates before ever reaching the septic tank, unlike chlorines
- Environmentally friendly
- Improves oxidation during regeneration and air refresh cycles
- Environmentally friendly
- Reduces the risk of bacteria growth in the tank
- Provides text messages, emails and/or push notifications for low salt and other system information to your smartphone.
