

DROP

Professional Series

Whole House Backwashing Filter

Professional Series Technology includes:

- PRO Valve with Screw Drive for Piston Accuracy
- Ensures increased efficiency and saves water

Features

- Removes organic solids, and removes or reduces chlorine, THM, pesticides and other chemicals commonly found in domestic water (depending on media used)
- Adjustable Cycle Times
- 9V Battery Backup for Power Loss
- DROP App to Control System from Anywhere
- Water Usage Data and History
- Provides text messages, emails and/or push notifications system information to your smartphone.
- Proprietary two valve manual bypass with 1" MNPT Connections.
- 5 Year Warranty

Benefits

If you have a larger home or are concerned about chemical contamination and/or greater amounts of sediment in your domestic water supply, the DROP Pro Series Whole House Backwashing Filter is the way to go. This professional-grade filter comes in two sizes and includes a backwashing cycle that periodically flushes the filter to clear it of excess debris and chemical accumulation.

DROP offers the only water filters in the world that protect your home from water leaks in addition to providing all the benefits of treated water. When paired with DROP Leak Detectors through the DROP Hub, this system provides all the benefits of a top of the line water filter, home leak protection, and a water conservation system in one.

Use to Improve Taste, Odor and Color

The DROP Pro Series Water Filter is a professional grade water filter that is available in various sizes to fit your household needs.

* Use of a Flow Control in the service line is highly recommended.

** Caution should always be used in sizing filters. Always choose a unit by first satisfying the backwash flow requirement. Consult the factory or your field sales person with questions.

The DROP Hub

The Pro Series Filter requires the function of the DROP Hub. The hub is the connection to everything on the DROP Smart Water Management system. It integrates all of your residential water devices together.

The DROP Remote

This unique device is an excellent accessory with any other DROP product. This smart remote lets you turn on/ off your water with a convenient button, notifies you of new system status events, and extends your wireless DROP Link network.

The DROP Leak Detector

Never worry about coming home to frozen pipes, absurdly high water bills or a soaked kitchen. These inconspicuous water-saving devices integrate with our smart water monitoring system to safeguard your home.

The DROP Alert

Monitoring Your Sump Pump – All The Time. A malfunctioning sump pump can cause a lot of damage quickly! The DROP Alert lets you know when a problem is sensed, saving the cost of lost valuables.

DROP Pump Controller

The DROP Pump Controller monitors your water usage and your pump diagnostics, all while providing your home protection.

The DROP App

DROP offers both a web and a mobile app. This gives you total control over your in-home water system from anywhere in the world.
